Check these out !

- | | |
|------------------|---|
| <u>CIM-1200</u> | Universal wire-in ANI Encoder. MDC-1200 and GE Star. |
| <u>CIM-1200K</u> | Plug-in ANI Encoder for 20-pin and 26-pin Kenwood radios. MDC-1200 and GE Star. |
| <u>VMDE-200</u> | Plug-in ANI Encoder and Decoder for Vertex Standard radios. Backward compatible with the VME-100. Plugs right in and uses the same programming software as the VME-100. |
| <u>CIM-2200</u> | Universal wire-in ANI Encoder and Decoder. MDC-1200 and GE Star. |

Add Security to your ANI board !

QS-4200

Wire-in board adds enhanced inversion encryption to your radio system

QS-5000

Wire-in board adds high level fast frequency hopping encryption to your radio system

VQS-420

Plug-in board for Vertex Standard radios adds enhanced inversion encryption to your radio system

VQS-500

Plug-in board for Vertex Standard radios adds high level fast frequency hopping encryption to your radio system
